

Dr. Aaron Frenette grew up in North Dakota and received his bachelor's degree from North Dakota State University in Fargo. He continued his education at the University of North Dakota School of Medicine where he obtained his medical degree. He then completed a surgical internship at the University of Washington in Seattle. Dr. Frenette then moved to Kansas where he completed his diagnostic radiology residency/ESIR training at the University of Kansas Medical Center in Kansas City. Dr. Frenette finalized his post graduate training at the University of Colorado Anschutz Medical Center in Aurora, completing an independent interventional radiology fellowship.

Dr. Frenette's professional areas of interest are focused in interventional radiology and enjoys the direct patient care and case variety this specialty provides. His enjoyment of international travel has also allowed him to be involved in several medical mission trips to Guatemala and most recently Ethiopia to assist their interventional radiology department in Addis Ababa.

When Dr. Frenette is not working or traveling on medical missions, he enjoys learning odd skills and is proficient at lock picking, axe/knife throwing, knitting, painting, as well as video and photo editing. He stays active through a variety of activities including snowboarding, kayaking, mountain biking, rock climbing, hiking/camping, weight lifting, running, and martial arts training. An interesting fact about Dr. Frenette is that he was a licensed private investigator and armored truck driver for three years.
