

Dr. Zachary Bailey was raised in Tennessee and attended the University of Tennessee in Knoxville to obtain his bachelor's degree. He then moved to Missouri to complete his Doctor of Osteopathic Medicine degree from Kansas City University of Medicine and Biosciences followed by his diagnostic radiology residency at the University of Missouri-Kansas City. To complete his postgraduate training, Dr. Bailey moved to Houston for a musculoskeletal imaging fellowship at The University of Texas—MD Anderson Cancer Center.

Professionally, Dr. Bailey's areas of interest are Musculoskeletal MRI as well as the economics of medicine & healthcare. When he is not working, Dr. Bailey enjoys mediocre golf, fine scotch, and spending time with his wife and three young children. He is a fan of the University of Tennessee Volunteers, who consistently disappoint him and keep him humble. Their family is also Kansas City Chiefs fans and are looking forward to a move behind "enemy lines".

For more information about Advanced Medical Imaging Consultants' radiologists or services, please contact Andi Dresen, Client Services Manager, at 970-484-4757.
