

Dr. Karen Alderfer attended Loyola Marymount University in Los Angeles, CA, where she received her bachelor's degree before continuing on to the University of Nevada School of Medicine in Reno to complete her Doctor of Medicine degree. Dr. Alderfer was fortunate to move back to Los Angeles to complete her diagnostic radiology residency before concluding her training with a fellowship in interventional radiology at the University of Southern California.

Dr. Alderfer's professional areas of interest are vascular imaging including CTA and ultrasound as well as clinical management of peripheral arterial disease. She is passionate about central venous disease and education to help medical providers better understand this disease.

In her free time, Dr. Alderfer enjoys spending time with her husband, Mike, and young daughter. She also enjoys learning and practicing a traditional Japanese musical instrument called the koto. Her teacher, who professionally played this instrument in Japan, is also teaching her traditional kimono dressing. Dr. Alderfer likes collecting rare houseplants and reading novels as well.

For more information about Advanced Medical Imaging Consultants' radiologists or services, please contact Andi Dresen, Client Services Manager, at 970-484-4757.
